Harmon's Fine Oriental Poppies

★ SEP 13 1943 ★

U. S. Department of Agriculture

These vivid colored flowers are becoming more popular every year. We offer new varieties that add dash and exotic beauty to your garden. Flowers are very large on tall stiff stems. Colors range from pure white through many shades of orange, pink and red, to wine-purple.

Consider their ease of culture, dependability for producing fine, large flowers, their hardiness and ability to thrive in almost all soils. They give large dividends for the little effort and time required to care for them.

THE PLANTS WE SELL ARE GROWN FROM ROOT DIVISIONS

All are two-year-old field grown plants. They generally bloom the first year after planting and are very much superior to common seedlings usually sold at a cheap price. We guarantee them to be true to name and color.

Complete cultural directions are sent with each order. Poppies like a well drained soil but they are not particular whether it is clay, sandy limestone or acid. Leaf mold, well rotted cow manure and bone meal are the best fertilizers for them.

SNOWFLAME---The Only Two-toned Oriental Poppy

(Plant patent No. 365). The lower half of the flowers is pure white, the upper half a flame-orange, creating a most unusual and brilliant effect. The orange band of the upper half of the petal varies considerably in width with each flower, helping increase the charm of this rare variety. Happily Snowflake is a very strong grower and blooms freely. It is not subject to any ailments or insect pests. In fact, it is one of the strongest growing varieties we have. The flowers are large and grow on stiff stems. A few clumps of Poppy Snowflake in your garden will create nothing short of a sensation. From August until the end of the fall planting season we send field-grown roots. 60c each, 3 for \$1.75, 12 for \$5.50.

Fine Varieties of Oriental Poppies

These varieties have been tested and found very satisfactory. Strong growing, hardy and very desirable.

AUSTRALIA—Tall rigid stems and massive flowers rich dark red. An outstanding variety 75c
